

October 2, 1997

Letter of Recommendation for Kenvil Atkins.

Kenvil Atkins has been an employee of M&I Data Services since June of 1994. He has reported to me in the past and is part of the Print Services team. Ken is eager to learn, and has a very positive attitude towards his job and M&I Data Services. Ken started here at M&I as a temporary tape operator. Because of his dedication and hard work he was hired as a peripheral operator. After a short time Ken was promoted to a tape librarian. Ken has proven to be a valuable part of our Print Services team. He is a steady performer and has received good reviews from his supervisors. He has taken the initiative to learn new things and make changes in the tape library to improve the efficiency of the area. He has on many occasions, when workloads demanded extra effort, put aside his personal life and put forth the effort necessary to complete the job. Ken has been a pleasure to work with and will be an asset to any team, department, or company that he decides to work for.
